Sharpening Intellect | Deepening Christian Faith | Inspiring Action

Messiah University is a Christian university of the liberal and applied arts and sciences. Our mission is to educate men and women toward maturity of intellect, character and Christian faith in preparation for lives of service, leadership and reconciliation in church and society. This content is freely provided to promote scholarship for personal study and not-for-profit educational use.

The End (cont.)

When Sunday hit, the scientists were utterly despondent. NASA issued a statement: “Be with your loved ones at 10:03 p.m.”

Some of us had different ideas. Some wanted to climb mountains, see the ocean, and drive as far as possible. Some jumped off of tall buildings. Some wanted to squeeze as much in and be as far from familiarity as possible.

But most of us stayed home, snuggled together on the sofa, terrified but also at peace, while watching our favorite early 2000s rom-coms.

Most of us were indulging in the last moments of what it felt like to be alive when the asteroid came streaking through our atmosphere at 10:03 p.m.
